

Product Specification:

UNICLIC® Engineered Strand Woven Bamboo - Commercial & Residential Use

Key Features:

- 100% renewable and sustainable Moso bamboo from monitored plantations
- Extremely hard and stable with excellent indentation resistance
- Easy and quick to install Uniclic® locking system
- Compatible with wet under floor heating systems.

Warranty:

- Residential: 25 Yr Lifetime Limited Warranty on structural integrity of product; 10 Yr Limited Wear Warranty.
- Commercial: 10 Yr Limited Structural Warranty; 5 Yr Limited Wear Warranty

Profile:

- Micro bevel with Uniclic® system on all 4 sides

Finish:

- 7 layers of Matt Bona Naturale lacquer. Coatings are water based, solvent-free and comply with European (E1) standards for off-gassing.

Installation:

- Boards can be floated over underlay or glued directly to a wood/concrete sub-floor using a flexible adhesive. For commercial and high traffic usage gluing the flooring down with a flexible adhesive to the sub-floor is recommended.

Janka Hardness Scale (kN)

The higher the number, the harder the surface.

Construction:

Strand Woven

Plywood Base with a 4mm strand woven bamboo wear layer. Bamboo grain is random

Dimensions:

Size (mm)	1830 x 190 x 14
Packaging	8 planks per box
m ² /pack	2.78

The mark of responsible forestry

100% FSC

Item	Standard	Result
Flammability Resistance	EN 13501-1:2007	Class Cf1-s1
Hardness	ASTM D1037 (Janka Ball)	3562lbf (15.8kn)
