

UNICLIC® Strand Woven Bamboo - Commercial & Residential Use

Product Specification:

Key Features:

- 100% renewable and sustainable Moso bamboo from monitored plantations
- Extremely hard and stable with excellent indentation resistance
- Easy and quick to install Uniclic® locking system
- Compatible with wet under floor heating systems.

Warranty:

- Residential: 25 Yr Lifetime Limited Warranty on structural integrity of product; 10 Yr Limited Wear Warranty.
- Commercial: 10 Yr Limited Structural Warranty; 5 Yr Limited Wear Warranty

Profile:

- Micro bevel with Uniclic® system on all 4 sides

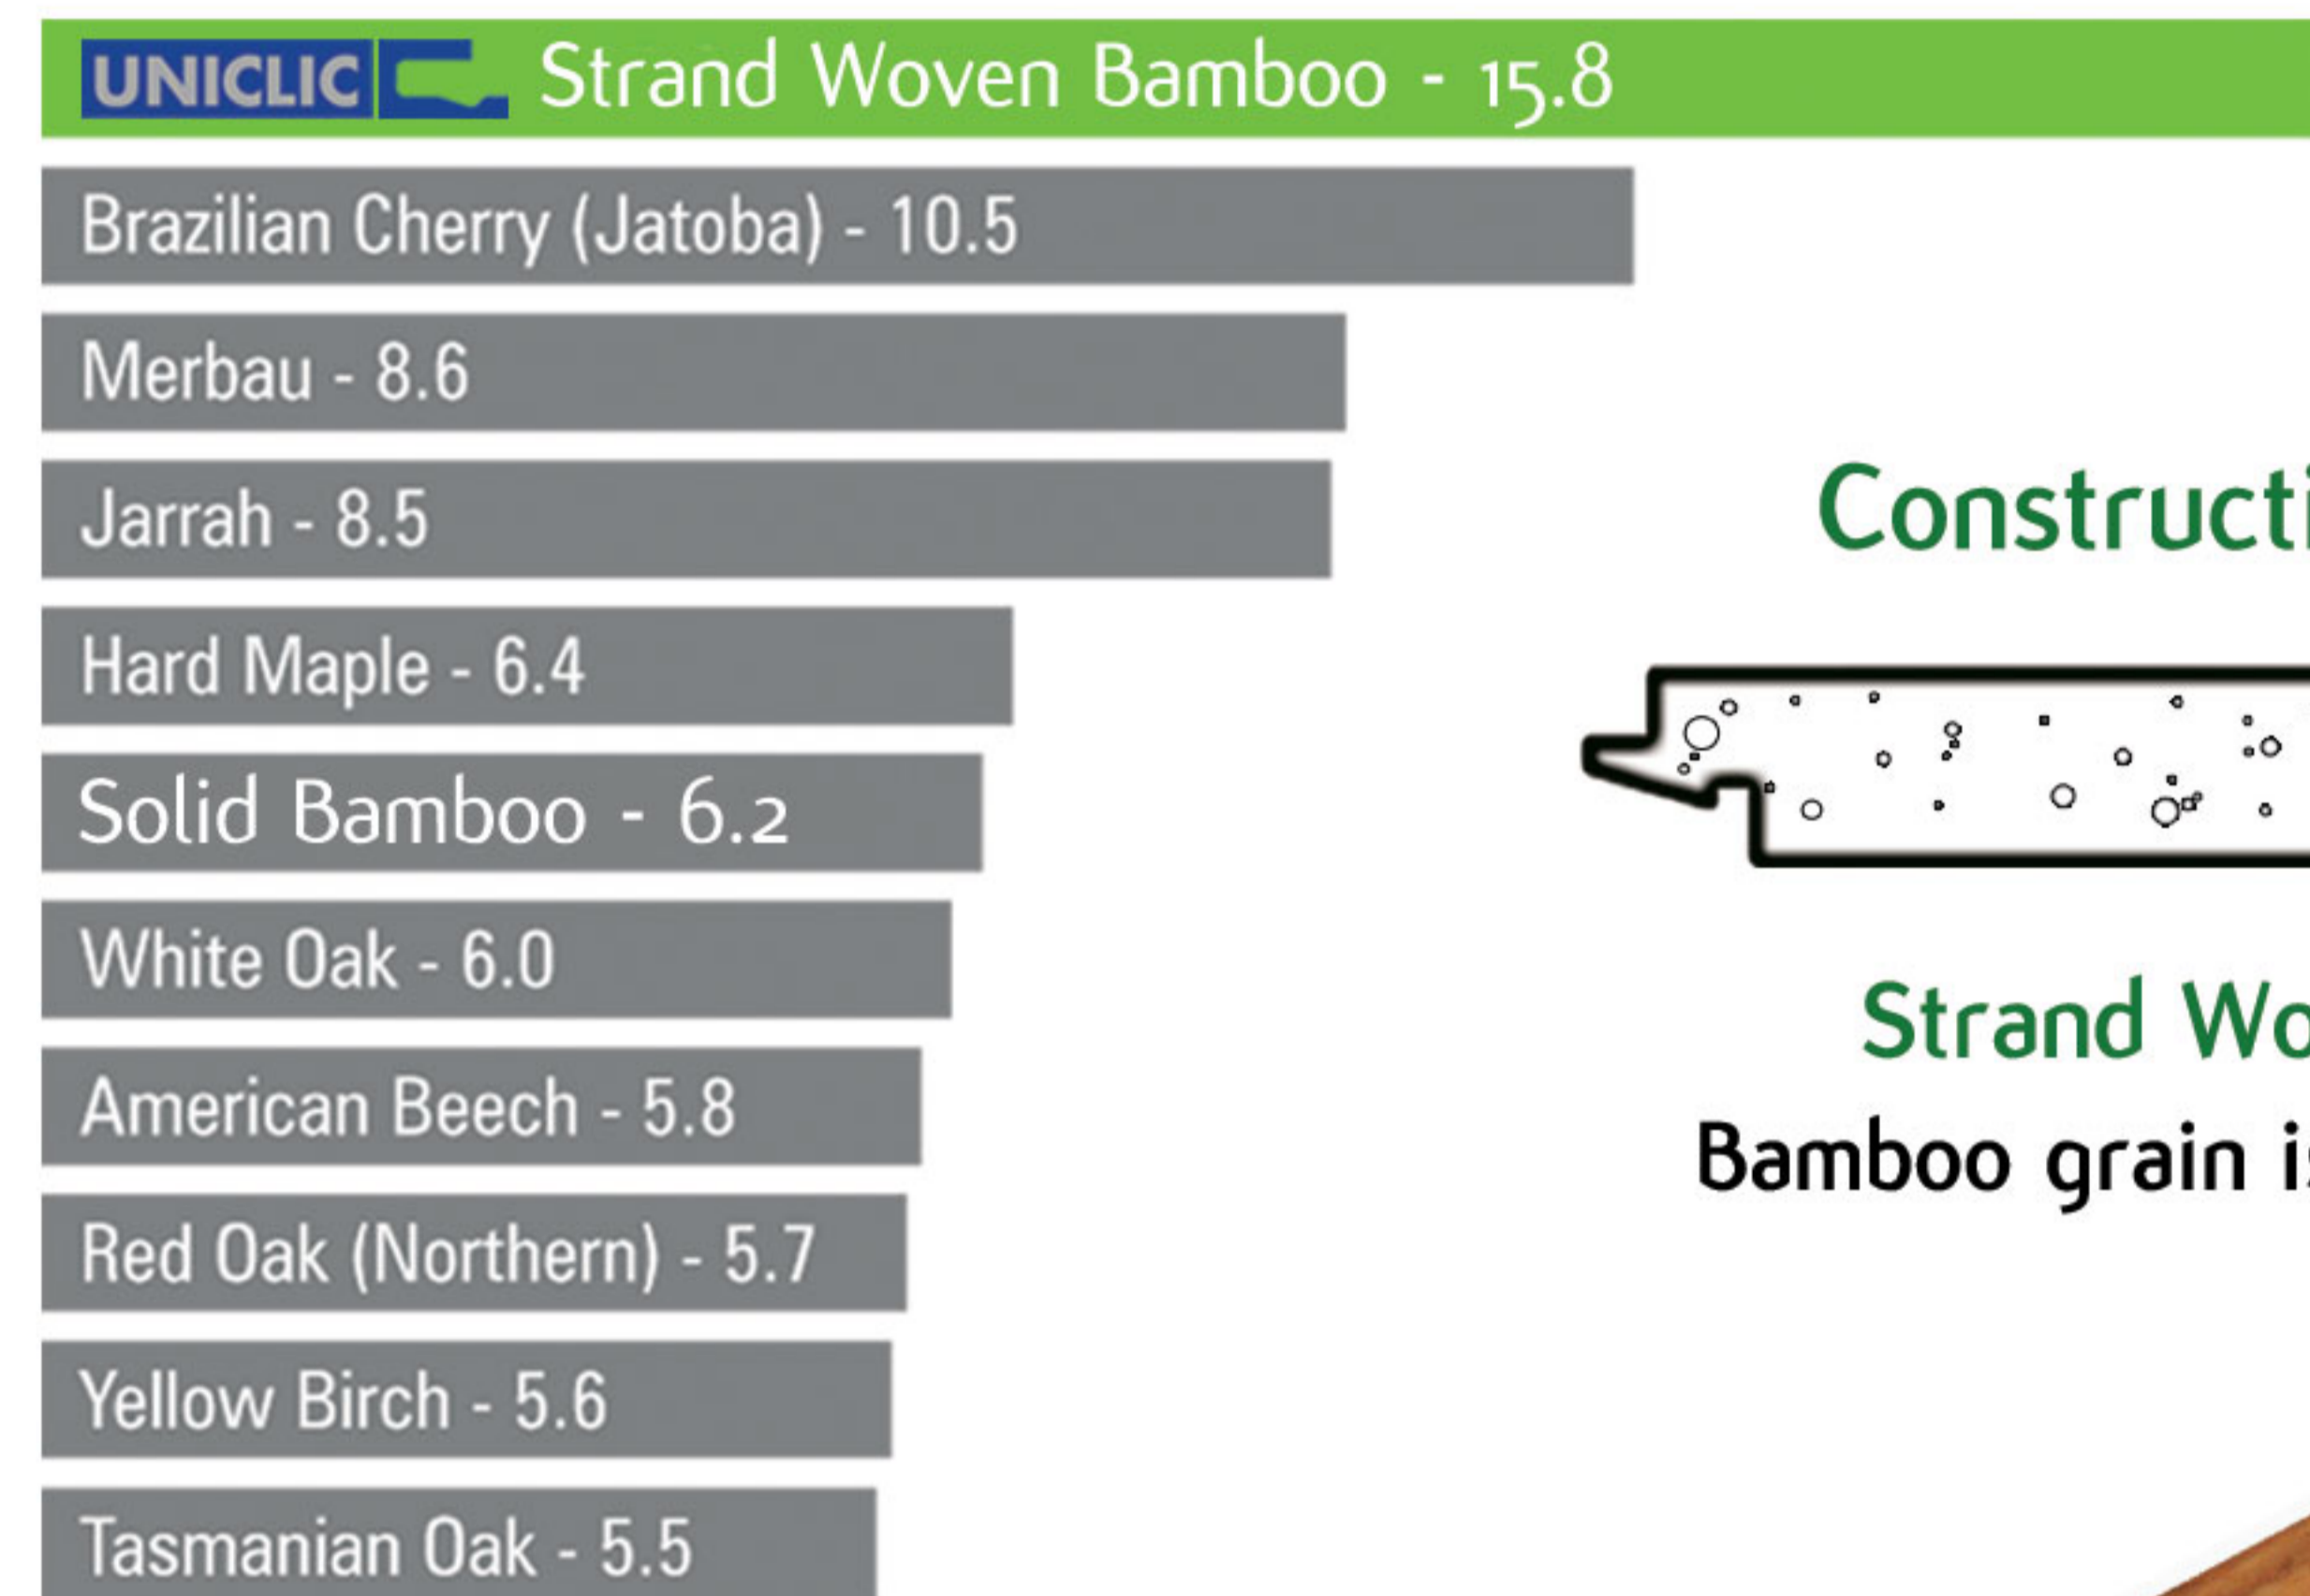

Finish:

- 7 layers of Matt Bona Naturale lacquer. Coatings are water based, solvent-free and comply with European (E1) standards for off-gassing.

Installation:

- Boards can be floated over underlay or glued directly to a wood/concrete sub-floor using a flexible adhesive. For commercial and high traffic usage gluing the flooring down with a flexible adhesive to the sub-floor is recommended.

Janka Hardness Scale (kN)

The higher the number, the harder the surface.

Dimensions:

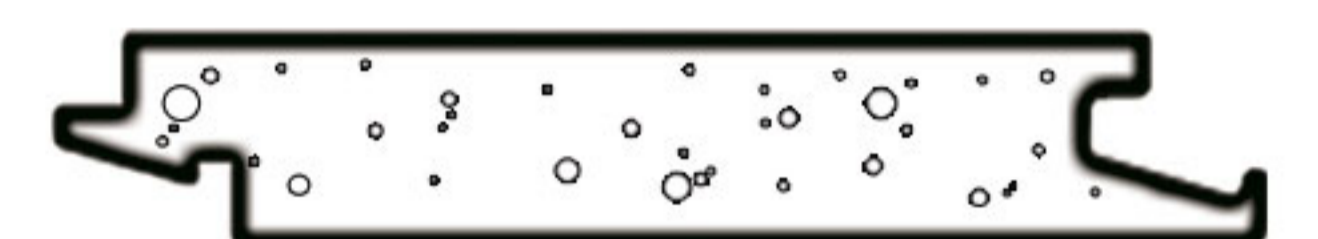

Size (mm)	1850 x 135 x 14
Packaging	6 planks per box
m ² /pack	1.5

The mark of responsible forestry

100% FSC

Construction:

Strand Woven
Bamboo grain is random

Item	Standard	Result
Flammability Resistance	EN 13501-1:2007	Class Cf1-s1
Hardness	ASTM D1037 (Janka Ball)	3562lbf (15.8kn)
Formaldehyde Emissions	EN 717-2: 1995	0.5mg/m ² h (E0)
Slip Resistance	EN 1339:2003	AS/NZS 4586: R10
Moisture Content	ASTM D 4442	<10%
Density	EN 323: 1993	84-0 N/mm ²
