## Trade name: 008 Osmo Teak-Oil Spray, Clear

Additional information:

For the wording of the listed risk phrases refer to section 16.

#### **SECTION 4: First aid measures**

| General information:            | Immediately remove any clothing soiled by the product.                                    |
|---------------------------------|---|
|                                 | Take affected persons out into the fresh air.   |
| After inhalation:               | Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult |
|                                 | doctor if symptoms persist.   |
|                                 | In case of unconsciousness place patient stably in side position for transportation.      |
| After skin contact:             | Immediately wash with water and soap and rinse thoroughly.                                |
| After eye contact:              | Rinse opened eye for several minutes under running water. Then consult a doctor.          |
| After swallowing:               | If swallowed, seek medical advice immediately and show this container or label.           |
| 4.2 Most important symptoms an  | d   |
| effects, both acute and delayed | Headache  |
|                                 | Disziness   |
| 4.3 Indication of any immediate |   |
| medical attention and special   |   |
| treatment needed                | No further relevant information available.  |

### **SECTION 5: Firefighting measures**

| 5.1 Extinguishing media          |   |
|----------------------------------|---|
| Suitable extinguishing agents:   | CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant    |
|                                  | foam.   |
| For safety reasons unsuitable    |   |
| extinguishing agents:            | Water with full jet   |
| 5.2 Special hazards arising from |   |
| the substance or mixture         | Can form explosive gas-air mixtures.  |
|                                  | Formation of toxic gases is possible during heating or in case of fire.                 |
| 5.3 Advice for firefighters      |   |
| Protective equipment:            | Mouth respiratory protective device.  |
| Additional information           | Dispose of fire debris and contaminated fire fighting water in accordance with official |
|                                  | regulations.  |
|                                  | Cool endangered receptacles with water spray.   |

### SECTION 6: Accidental release measures

| 6.1 Personal precautions, |   |
|---------------------------|---|
| protective equipment and  |   |
| emergency procedures      | Ensure adequate ventilation                               |
|                           | Wear protective equipment. Keep unprotected persons away. |
|                           | Keep away from ignition sources.                          |
|                           |   |

(Contd. on page 4)

GB

Printing date 19.03.2015

Version number 13

Revision: 19.03.2015

### Trade name: 008 Osmo Teak-Oil Spray, Clear

| 6.2 Environmental precautions:  | (Contd. of page 3)<br>Do not allow to enter sewers/ surface or ground water.         |
|---------------------------------|--|
|                                 | Inform respective authorities in case of seepage into water course or sewage system. |
| 6.3 Methods and material for    |  |
| containment and cleaning up:    | Warm water and cleansing agent   |
|                                 | Ensure adequate ventilation.   |
| 6.4 Reference to other sections | See Section 13 for disposal information.   |

### SECTION 7: Handling and storage

| 7.1 Precautions for safe handling   | Keep away from heat and direct sunlight.   |
|-------------------------------------|--|
|                                     | Keep receptacles tightly sealed.   |
|                                     | Use only in well ventilated areas.   |
|                                     | Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air). |
| Information about fire - and        |  |
| explosion protection:               | Do not spray onto a naked flame or any incandescent material.                              |
|                                     | Keep ignition sources away - Do not smoke.   |
|                                     | Protect against electrostatic charges.   |
|                                     | Pressurised container: protect from sunlight and do not expose to temperature              |
|                                     | exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.              |
| 7.2 Conditions for safe storage, in | cluding any incompatibilities  |
| Storage:                            |  |
| Requirements to be met by           |  |
| storerooms and receptacles:         | Store in a cool location.  |
| -                                   | Observe official regulations on storing packagings with pressurised containers.            |
| Information about storage in one    |  |
| common storage facility:            | Do not store together with alkalis (caustic solutions).                                    |
|                                     | Do not store together with oxidising and acidic materials.                                 |
| Further information about           |  |
| storage conditions:                 | Store only outside or in explosion proof rooms.  |
|                                     | Store in a cool place. Heat will increase pressure and may lead to the receptach           |
|                                     | bursting.  |
|                                     | Keep container tightly sealed.   |
|                                     | Store in cool, dry conditions in well sealed receptacles.                                  |
|                                     | Protect from heat and direct sunlight.   |
| 7.3 Specific end use(s)             | No further relevant information available.   |
| - •                                 |  |

SECTION 8: Exposure controls/personal protection

Version number 13

Revision: 19.03.2015

### Trade name: 008 Osmo Teak-Oil Spray, Clear

(Contd. of page 5) For the mixture of chemicals mentioned below the penetration time has to be at least 480 minutes (Permeation according to EN 374 Part 3: Level 6).

As protection from splashes gloves made of the following materials are suitable: Eye protection: Body protection:

Nitrile rubber, NBR Tightly sealed goggles Protective work clothing

### SECTION 9: Physical and chemical properties

| 9.1 Information on basic physica    | al and chemical properties  |
|-------------------------------------|---|
| General Information<br>Appearance:  |   |
| Form:                               | Aerosol   |
| Colour:                             | Clear   |
| Odour:                              | Characteristic  |
| Change in condition                 |   |
| Melting point/Melting range:        | Undetermined.   |
| <b>Boiling point/Boiling range:</b> | Not applicable, as aerosol.   |
| Flash point:                        | Not applicable, as aerosol.   |
| Ignition temperature:               | 240 °C  |
| Self-igniting:                      | Product is not selfigniting.  |
| Danger of explosion:                | Product is not explosive. However, formation of explosive air/vapour mixtures are possible. |
| Explosion limits:                   |   |
| Lower:                              | 0.6 Vol %   |
| Upper:                              | 8.5 Vol %   |
| Vapour pressure at 20 °C:           | 2.1 hPa   |
| Density:                            | Not determined.   |
| Solubility in / Miscibility with    |   |
| water:                              | Not miscible or difficult to mix.   |
| 9.2 Other information               | No further relevant information available.  |
|                                     | (Contd. on page 7   |

### SECTION 10: Stability and reactivity

| 10.1 Reactivity               |   |
|-------------------------------|---|
| •                             |   |
| 10.2 Chemical stability       |   |
| Thermal decomposition /       |   |
| conditions to be avoided:     | Pressurised container: protect from sunlight and do not expose to temperatures  |
|                               | exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use.   |
|                               | Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting.   |
| 10.3 Possibility of hazardous |   |
| reactions                     | Forms explosive gas mixture with air.   |
|                               | Reacts with fabric soaked in the product (e.g. cleaning wool).  |
| 10.4 Conditions to avoid      | No further relevant information available.  |
| 10.5 Incompatible materials:  | No further relevant information available.  |
| 10.6 Hazardous decomposition  |   |
| products:                     | Carbon monoxide and carbon dioxide  |
|                               | Nitrogen oxides (NOx)   |
| Additional information:       | Warning:  |
|                               | Wash out any used cloth impregnated with this product immediately after use or store  |
|                               | in an airtight container (danger of self-ignition)  |
|                               |   |
|                               | Must not be applied on the same spraying stand as lacquers or lacquer corrosives that contain NC (nitrocellulose). Risk of self-ignition. |

### SECTION 11: Toxicological information

11.1 Information on toxicological effects Acute toxicity:

| LD/LC50     | LD/LC50 values relevant for classification: |  |  |
|-------------|---|--|--|
| 64742-48-   | 64742-48-9 aliphatic hydrocarbons, C10-C13  |  |  |
| Oral        | LD50  | >2000 mg/kg (rat)  |  |
| Dermal      | LD50  | >2000 mg/kg (rat)  |  |
| Inhalative  | LC50 / 4h                                   | >5 mg/l (rat)  |  |
| Primary in  | Primary irritant effect:                    |  |  |
| on the ski  | n:  | At long or repeated contact with skin it may cause dermatitis due to the degreasing effect of the solvent. |  |
| on the eye  | ne eye: not tested                          |  |  |
| Sensitisati | on:   | No sensitising effects known.  |  |
|             |   | (Contd. on page 8)   |  |
